

STATEMENT OF PURPOSE

RS20772

The Division of Building Safety is in the process of reorganizing its operating structure and eliminating the various bureau and bureau chief designations within the agency that formerly provided management oversight of the electrical, plumbing, HVAC, building, and public works programs. Management of those programs will be accomplished in a different manner by and among various other management positions, including newly created regional manager positions. Consequently, amendment to Sections 39-4115 and 67-2601A, Idaho Code, is necessary to bring those sections into alignment with the new organizational structure of the Division by eliminating references to nonclassified bureau chief employees and establishing nonclassified regional manager positions. Additionally, amendment to Section 39-4115, Idaho Code, would provide necessary flexibility for the Division to designate an appropriate nonclassified employee to serve as the executive director of the board as well as employ appropriate supporting staff.

FISCAL NOTE

No adverse impact.
